

Close you eyes

Awa Ly

[Intro]

[Couplet 1]

Feeling so high and low at the same time
It's hard I know to understand what I mean
Feeling so high and low at the same time
It's hard I know to understand what I mean

[Couplet 2]

Once you touched the sky and you went down
It's hard I know to understand what I mean
Once you touched the sky and you went down
It's hard I know to understand what I mean
Hard I know to understand what I mean

[Refrain 1]

Close your eyes
Close them wide shut
Use your inner senses
And you will figure it out

Close your eyes
Close them wide shut
Use your inner senses
And you will figure it out

[Couplet 3]

Like a dream, you can't remember
I know it's hard to understand what I mean
Like a sweet dream, you can't remember
I know it's hard to understand what I mean

[Couplet 4]

Or when you find your breath going under
I know it's hard to understand what I mean
Or when you find your breath going deeper
I know it's hard to understand what I mean
Know it's hard to understand what I mean

[Refrain 2]

Close your eyes
Close them wide shut
Use your inner senses
And you will figure it out

Close your eyes
Close them wide shut
Use your inner senses
And you will figure it out

[Pont]

[Couplet 5]

If somehow you feel it too now
I know you know, you know what I mean
Open your heart and don't be afraid
I know you know, you know what I mean
Let it in an' let it take over
I know you know, you know what I mean
Let it in and let it shine

[Refrain 3]

Close your eyes
Close them wide shut
Use your inner senses
And you will figure it out

*And you will figure it out
And you will figure it out
And you will figure it out
And you will figure it out*

Close your eyes
Close them wide shut
Use your inner senses
And you will figure it out

*And you will figure it out
And you will figure it out
And you will figure it out
And you will figure it out*

[Outro]

And you will figure it out
You will figure it out
You will figure it out
You will figure it out

*And you will figure it out
And you will figure it out
And you will figure it out*
