

Where did I go Jorja Smith

Maybe this fate was overdue
Baby it's late and I'm confused
You showed me love that wasn't real (wasn't real, wasn't real)
Can't teach yourself to be sincere

*Where did I go?
When did the sun rise?
How did I fall?
Got lost in the moonlight
Where did I go?
When did I realize
My love was on hold?
So now this is goodbye*

*Good, goodby-ye
Goodby-ye
Good, goodby-ye
Goodby-ye*

This time my questions lay with you (lay with you, lay with you)
'Cause each time inside I play the fool (played the fool, played the fool)
Silly boy, where did that man go?
The one that hurt my soul (the one that hurt my soul, the one that hurt my soul)
Now little man, I *left you on your own* (on your own)
With the whispers on *your phone* (on your phone)
I've been askin' *all along* (all along)

*Where did I go? (where did I go?)
When did the sun rise (did the sun rise?)
How did I fall? (did I fall?)
Got lost in the moonlight
Where did I go? (I go?)
When did I realize
My love was on hold?
So now this is goodbye*
